

Class 1: Mrs Shaw

Week Beginning: 20th April 2020

Hope you've all had a lovely Easter holidays and had some enjoyable time with your family doing lots of fun activities. Below are some suggested activities for you to try. Remember to post any pictures of the activities below so I can post them onto our class dojo page. Also, any questions you have do not hesitate to message me on class dojo. Miss you all. Mrs Shaw

English

Listen to story, 'Jasper's Beanstalk' – https://www.youtube.com/watch?v=Da6lxY_8jmU

- Write your own days of the week story.
On Monday I ...
On Tuesday I...

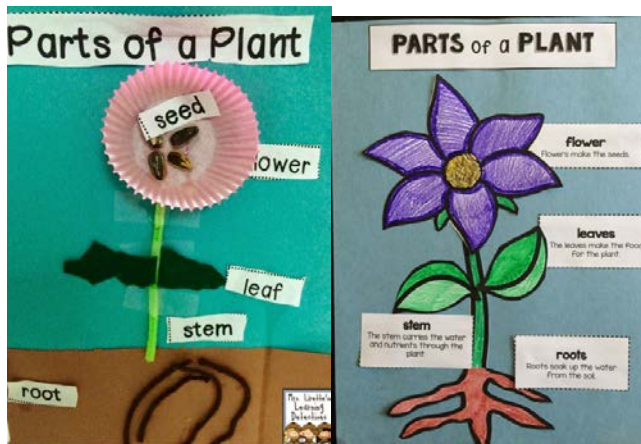

If you have access to a printer lots of printable worksheets can be found on www.twinkl.co.uk and search number bonds to 10

Topic: Plants

This term we would be starting to look at plants. It would be great if you could try some of the activities introducing them to the vocabulary of stem, root, leaves, flower, petal

- Grow your own plant (if you can!)
- <http://flash.topmarks.co.uk/2264> - Sparky the Alien with activities on growing plants which include labelling parts of a plant, finding out what a seed needs to grow and the life cycle of plants.
- Draw or paint and label your favourite plant.
- See how many different flowers/plants you can see when doing your daily exercise outdoors.
- Label a plant – describe what each part of the plant does

- Investigate what happens to the flowers when you put the STEMS into water mixed with food colouring
