

Year 6 W/C 27th April 2020

Hello everyone. I hope you are all keeping well. Please remember if you need anything (parents and children) please let me know. I am here for you all.

I am sure you are all working hard - parents included! Please keep trying to do what you can, when you can and remember, not all work and activities need to be attempted / complete. Feel free to attempt the work that grabs your interest and bypass anything you cannot or would not like to do.

There is so much choice available (on-line) at the moment, that I would urge you all to do work which suits your interests, skills and talents. In addition to work, make sure you all take the chance to talk, play and exercise together as much as you can.

With that in mind, some of you might be interested in trying the 2 6 Challenge. Basically, a challenge in which you have to do something with the numbers 2 and 6 in to raise a bit of money for a charity or good cause of your choice. For example, you could all do 26 laps of your garden (if you are look enough to have one) or do 26 good deeds in a week – I'm sure you get the idea.

As however, you will be heading into secondary school relatively soon, it would be an idea to continue your basic skills on a regular basis:

Times tables

Reading

Writing

In order to change it up this week, the work I am setting (or suggesting is based around MFL and Spanish). In school, the children have learned how to:

Say name/greetings

Numbers 1 – 20

Pets

Family

Colours

Countries

Rooms of home

Items in a room

Some food and drink

There appears to be some good work and games (etc) on the following websites which the children might enjoy (while hopefully learning more of the language).

Crickweb

Rockalingua

Spanish-games.net

MFL Lightbulb

I believe there are also activities on out of the ark if the children and you are feeling musical are up for a bit of a sing-a-long.

I would also encourage you to use BBC Bitesize (if you have not yet done so) along with the National Academy (<https://www.thenational.academy/online-classroom/year-6#schedule>). In addition, you can also continue with any of the suggested activities around space or the Wonders of the World (if the children and you so wish).

I hope all of this is of some help during these difficult times, and please remember, only do what you can.

Take care everyone and stay safe. Mr Cassap 😊
